Environmental Branch

Mr. Robert Swale  
U.S. Environmental Protection Agency  
Region V  
230 South Dearborn Street  
Chicago, Illinois 60604

Dear Mr. Swale:

The five (5) volumes of the Remedial Investigation Report and the two (2) volumes of the Baseline Risk Assessment for the American Chemical Services National Priorities List (NPL) Site at Griffith, Indiana, arrived May 30, 1991.

On May 14, 1991 a telefax communication was received stating that an action memorandum for authorization to amend an Interagency Agreement (IAG) with the U.S. Army Corps of Engineers had been submitted for an additional \$3,000. This funding was for the performance of Technical Oversight Assistance during the remainder of the Remedial Investigation/Feasibility Study.

Our office needs an officially signed IAG to ensure that the money is approved for this work before we can perform the tasks.

The amount of funds in IAG DW96934314-1 is \$3,104.60. This is not sufficient to review the above volumes. Upon official receipt of additional money to amend the IAG, our office will be happy to comply with your request.

If you should have any questions, please contact Ms. Jean Palensky at telephone (402) 221-7765.

Sincerely,

*Robert J. Smart*  
for S. L. Carlock, P.E.  
Chief, Environmental Branch  
Engineering Division
